## THE FINEST FURNITURE LEATHERS

*The Fredericia Leather Collection is a suite of leathers selected primarily for their exemplary quality. From surface finish to colour range, the leathers presented in this card are fine-tuned to complement the Fredericia product range, both visually and in material tactility.*

*All leathers are free of allergenic substances. The tanning processes are kept in enclosed systems to minimise local water pollution and environmental impact. Each Fredericia partner tannery is monitored and supervised to secure these ethical and quality standards.*

## NUBUCK VELVET

Velvet is a nubuck leather with a warm and charming look made from the finest European bull hides. A full-grain aniline hide has been lightly sanded to obtain a matte effect. The velvety soft touch of this nubuck leather is unparalleled by any other article. Nubuck Velvet is Scotchguard protected during the tanning process, while the surface remains sensible in use. Chrome tanned in Italy.

## VEGETAL NATURE

A pure, uncoloured aniline leather with a refined touch. This leather is produced from the top selection of Scandinavian bull hides. Discrete marks of animal life demonstrate the material's authentic origin. Vegetal Nature has a natural open-pored texture, making the leather highly breathable. With no protective layer, Vegetal Nature is sensible in use. This leather quickly acquires a unique patina and darkens over time. Fully vegetable tanned in Italy.

## ANILINE NATURE

This luxurious full-grain aniline leather has a pleasant touch and a natural open-pored texture. The leather is highly breathable and comfortable with a smooth, natural surface and tight structure. Aniline Nature is made from top selection Scandinavian bull hides with discrete visible marks of animal life. With no protective layer, Aniline Nature is sensible in use and will acquire a patina over time. Chrome then vegetable tanned in Italy.

## LEATHER PREMIUM

A state of the art full-grain semi-aniline leather made from the best Scandinavian bull hides. Thanks to a delicate and precise protective layer, Leather Premium retains a comfortable touch with excellent breathability. The leather is user-friendly and hardwearing with protection against dirt and light. This article was originally developed for Fredericia's Mogensen 22 Collection, but it is suitable for all leather furniture. Chrome tanned in Italy.

## LEATHER SOFT

A regular flat grain semi-aniline leather made from European cowhides. The leather is treated with colour pigment and a light protective layer that keeps a soft and comfortable touch with moderate breathability. Leather Soft is a durable leather protected against most stains with great lightfastness. Suitable for flat upholstery in a wide range of applications. Chrome-free tanned in Italy.

## LEATHER ROBUST

This pigmented furniture leather is made from European bull hides with a distinct grain structure. After being dyed, the leather is covered with a protective layer. With its heavy grain structure and solid feel, Leather Robust has a strong character. It is very resilient and easy to clean making it suitable for hardwearing public environments. Reduced breathability. Chrome tanned in Italy.
