CATALOG 2020

## noom

NOOM is a young rapidly growing design company from Ukraine that produces lighting, furniture, decor and home accessories.

We create timeless design products which will be passed from generation to generation. NOOM is a place where design meets art.

The company was founded in 2017 by an industrial designer Kateryna Sokolova and a designer, entrepreneur Arkady Vartanov who has 10 years' experience of manufacturing and his own workshop Postformula Craft. Kateryna Sokolova is an internationally established designer who collaborates with world-famous brands like Ligne Roset, Forestier, Jarre Technologies, Bolia etc.

Most of our products are made from metal. We produce them by combining both traditional and modern manufacturing technologies.

Every single piece involves careful manual work of our craftsmen. All products are made in Ukraine. This enables us to oversee the entire production process and pay attention to every single detail.

VASES

The Collection is inspired by the geometric works of the great Suprematist Kazimir Malevich. Suprematism is a modernist movement in the art of the early twentieth century, focused on the basic geometric forms, such as circles, squares, lines and rectangles.

The geometric structure of the vases is not only a decor, but also functional dividers and holders for flowers, which allow you to create elegant compositions. Even an empty vase will always look like a small art object in your house

All vases in the collection are called by the names of famous suprematists and modernist artists.

EKSTER VASE CS9

DELAUNAY VASE CS9

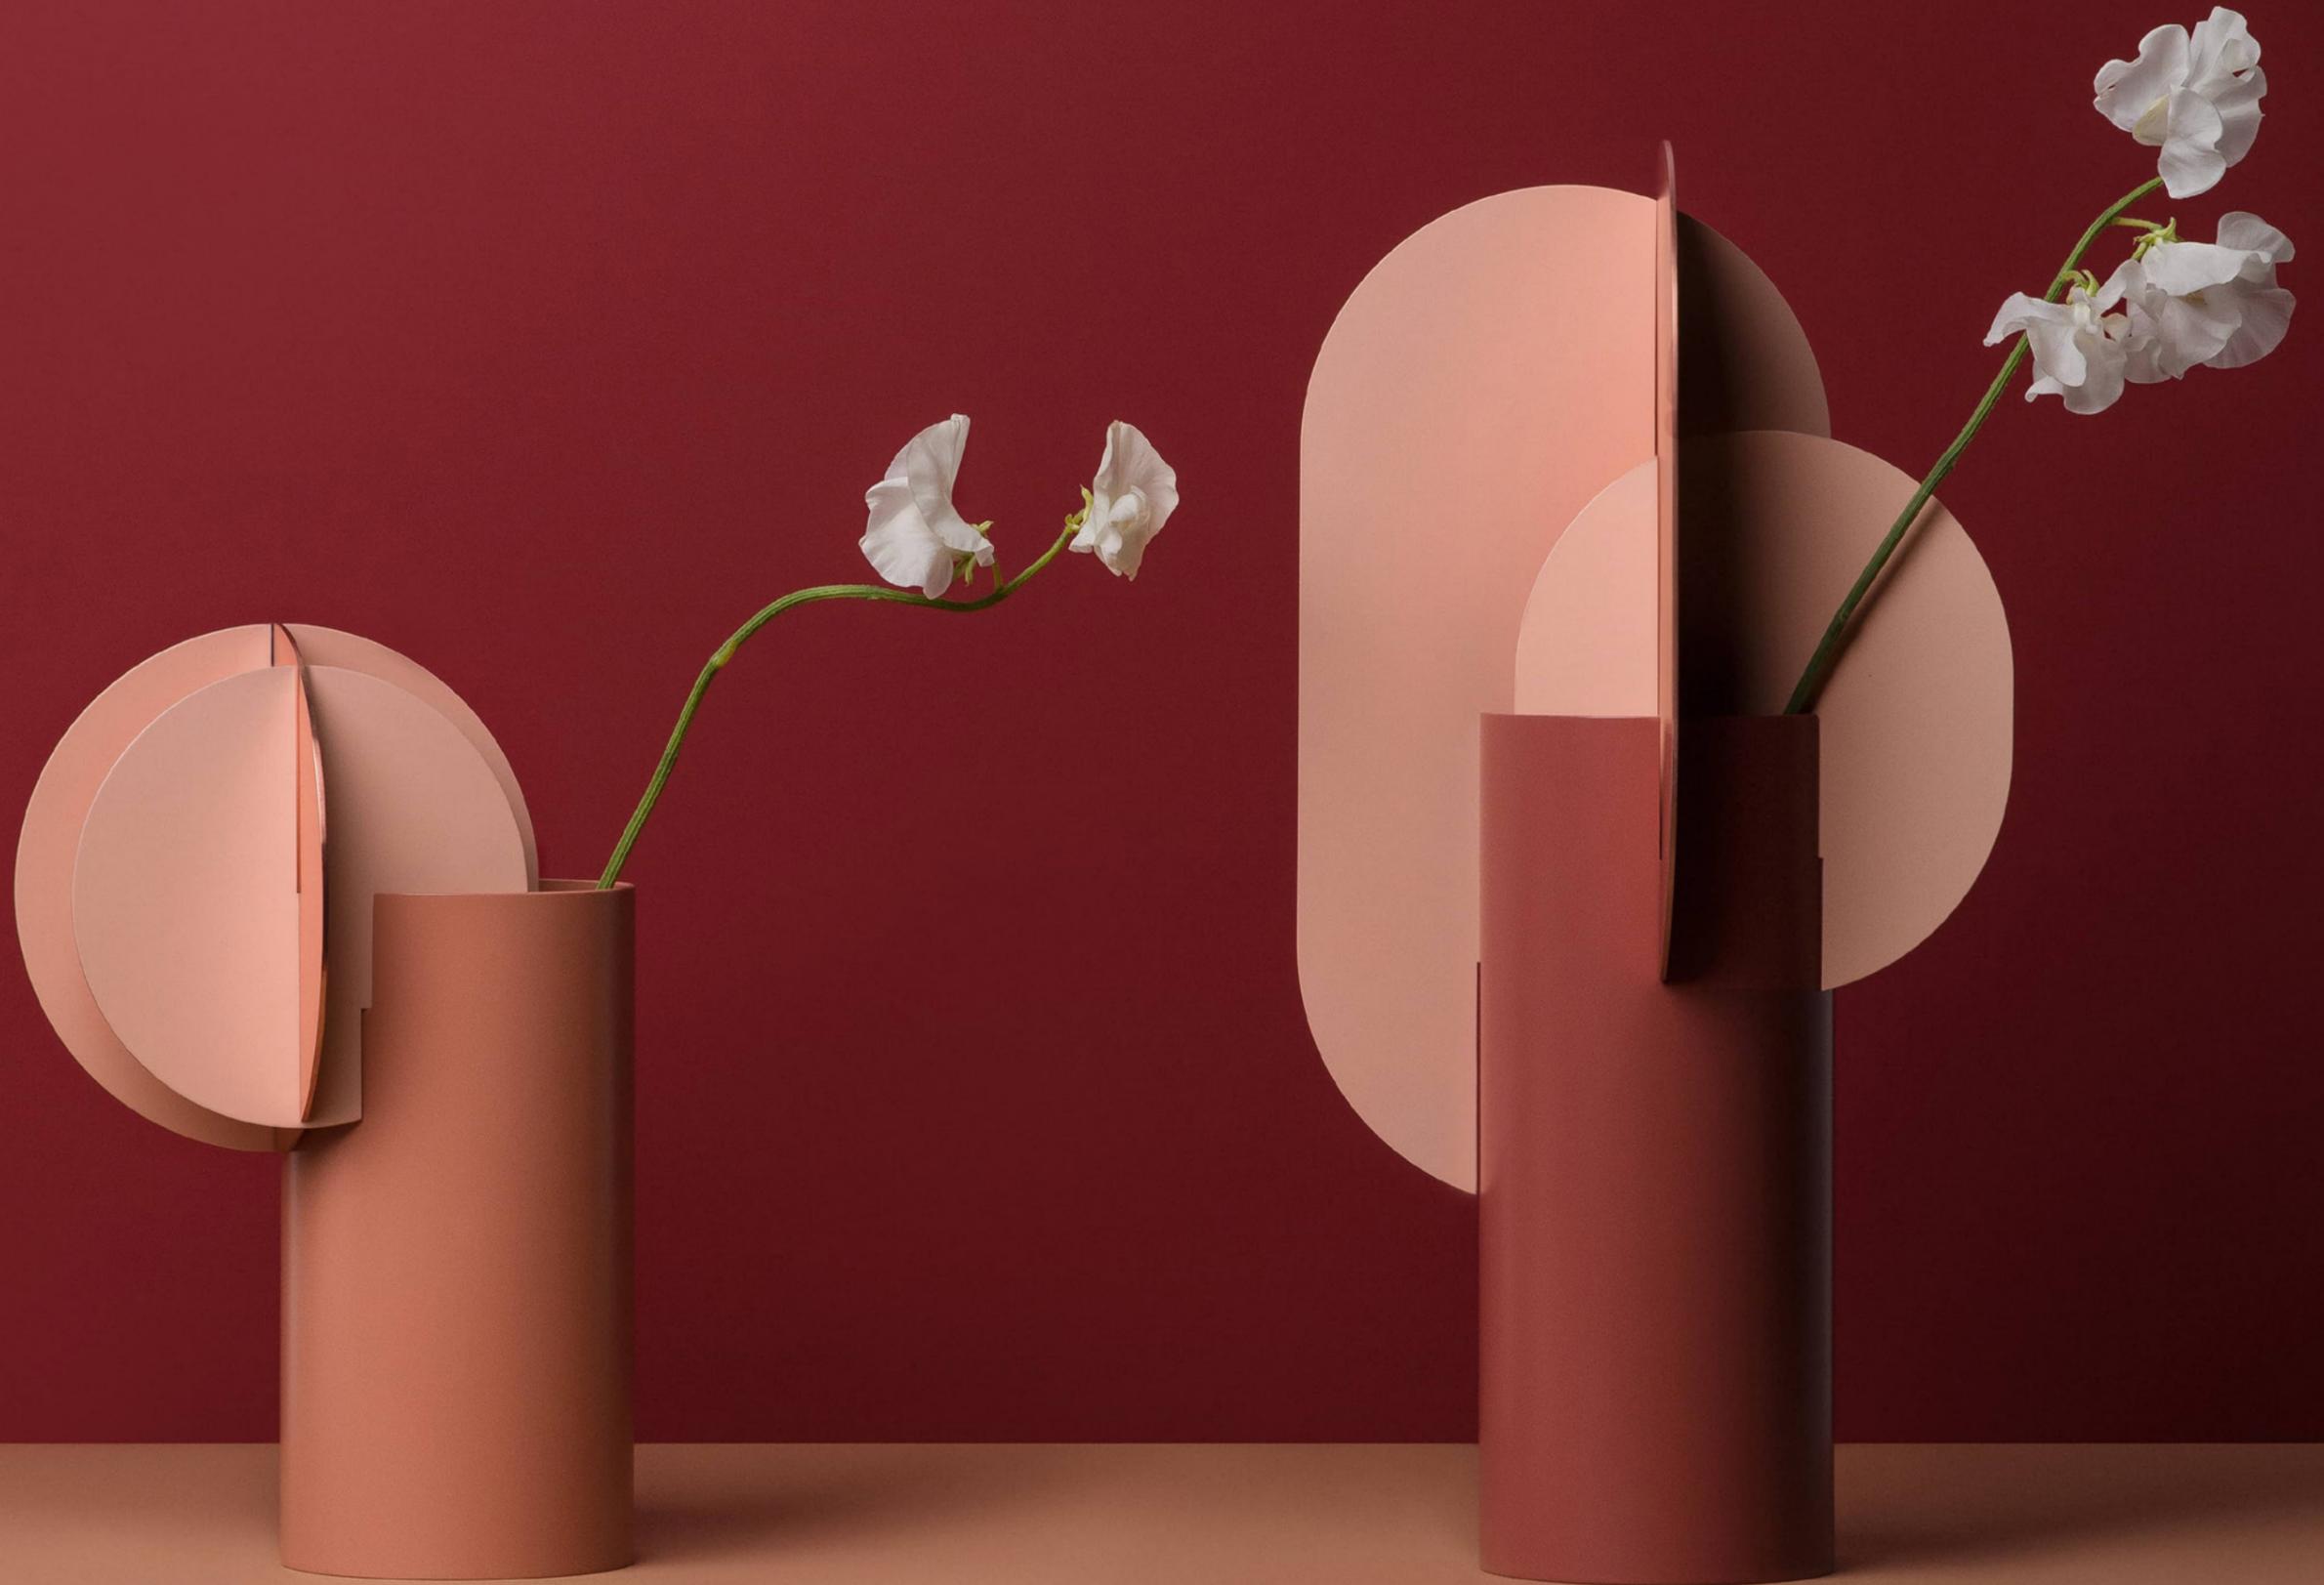

GABO VASE CS7

The geometric structure of the vases is not only a decor, but also functional dividers and holders for flowers.

Art and nature inspire us the most!

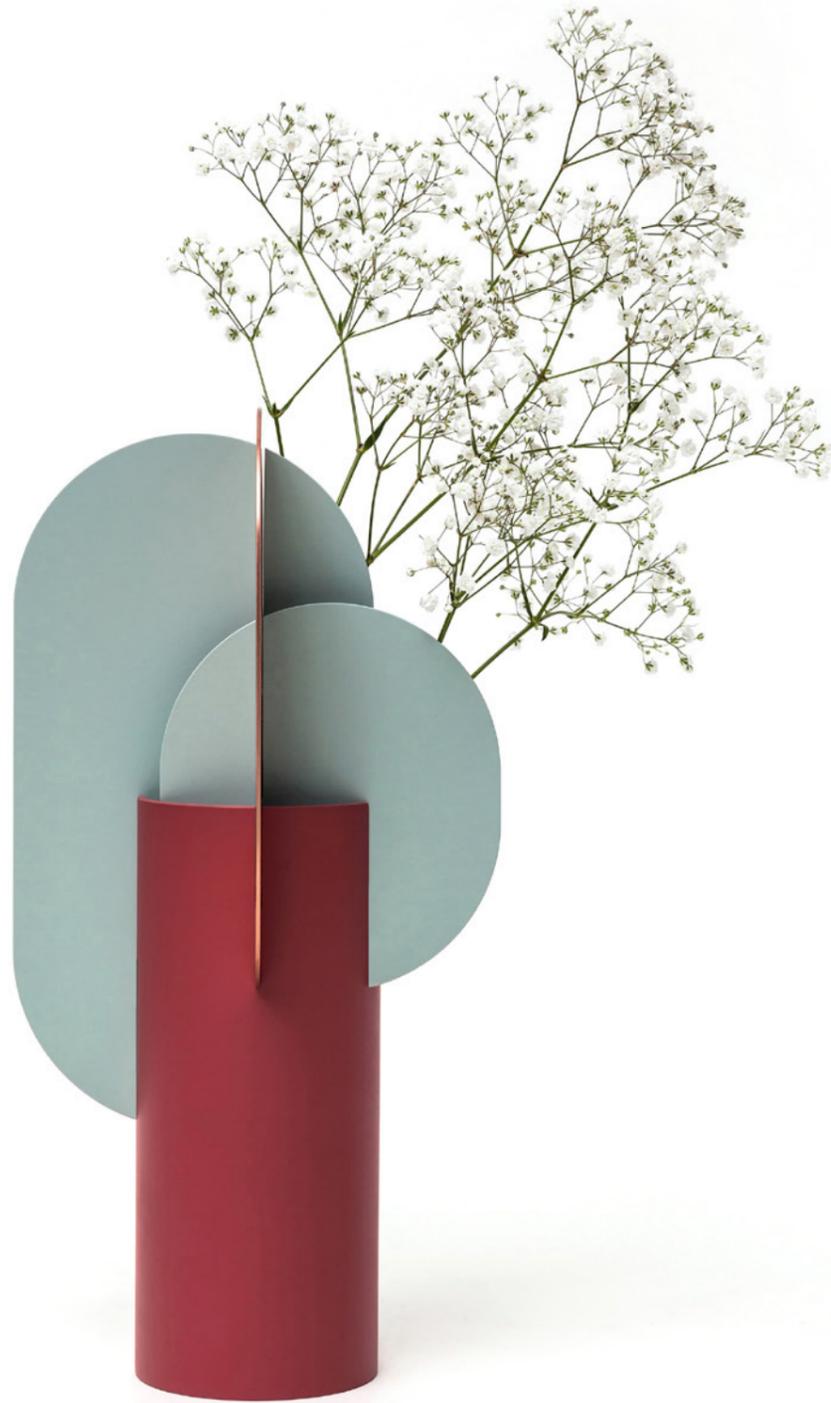

DELAUNAY VASE CS7

EKSTER VASE CS7 11

Even an empty vase looks like a small art object in your house.

The collection is inspired by the Suprematist art movement.

GENKE VASE CS2

All of the vases in a collection are called by the names of famous suprematists and modernist artists.

MALEVICH VASE CS7

LIMITED EDITION

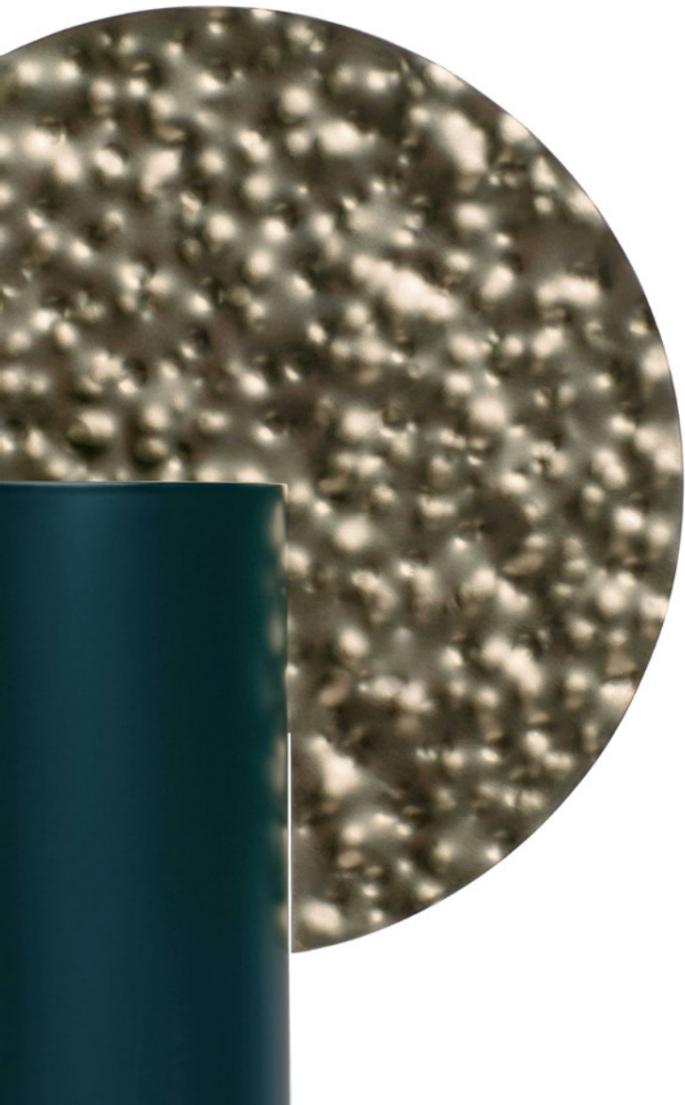

Suprematic Limited Edition is a refined collection of lighting and decor novelties. Thanks to the team's chemical specialist who works at oxidation and patina on metals, they managed to modify the unique new effects and colors among which are burned steel, hammered brass, and oxidized copper. Featuring excellence in craftsmanship and mastering noble metals.

NOOM limited edition vases and lighting have character and a unique soul. Each piece is suitable for being collected due to timeless design.

Hammered brass is the material made by our craftsmen using traditional handmade technique.

VERMILOV VASE LIMITED EDITION CSL2

There is a chemical specialist in our team who works on oxidation and patina on metals and creates new unique effects and colors for our limited edition products.

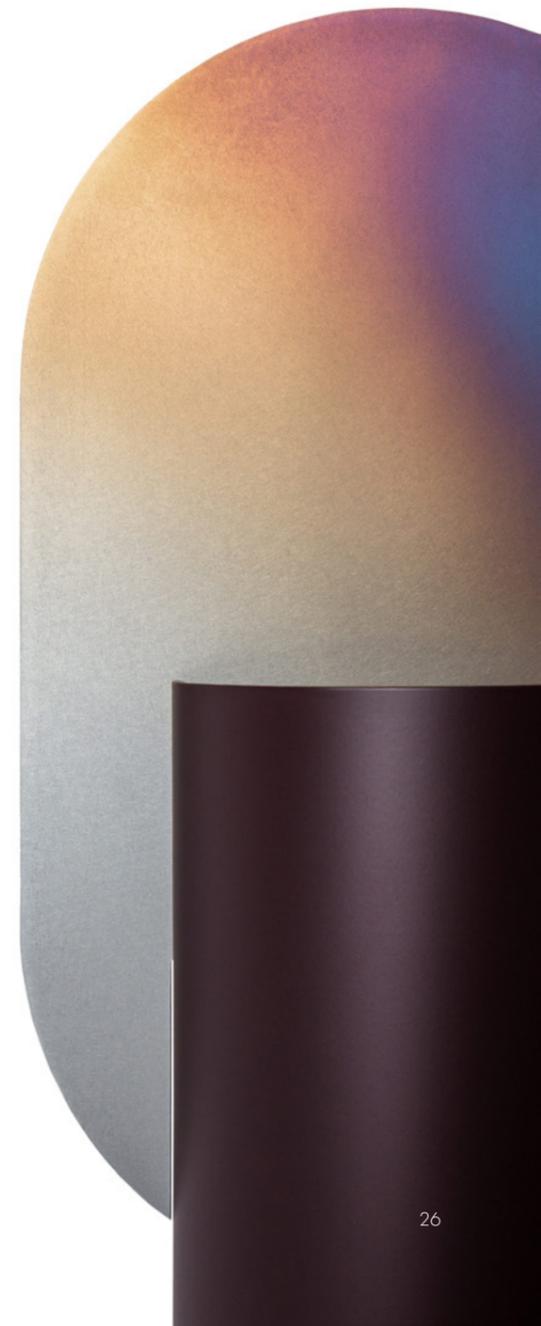

Burned steel is the material made by our craftsmen using handmade techniques.

GENKE VASE LIMITED EDITION CSL5

Each limited edition vase is suitable for being collected due to its timeless design.

LIGHTING

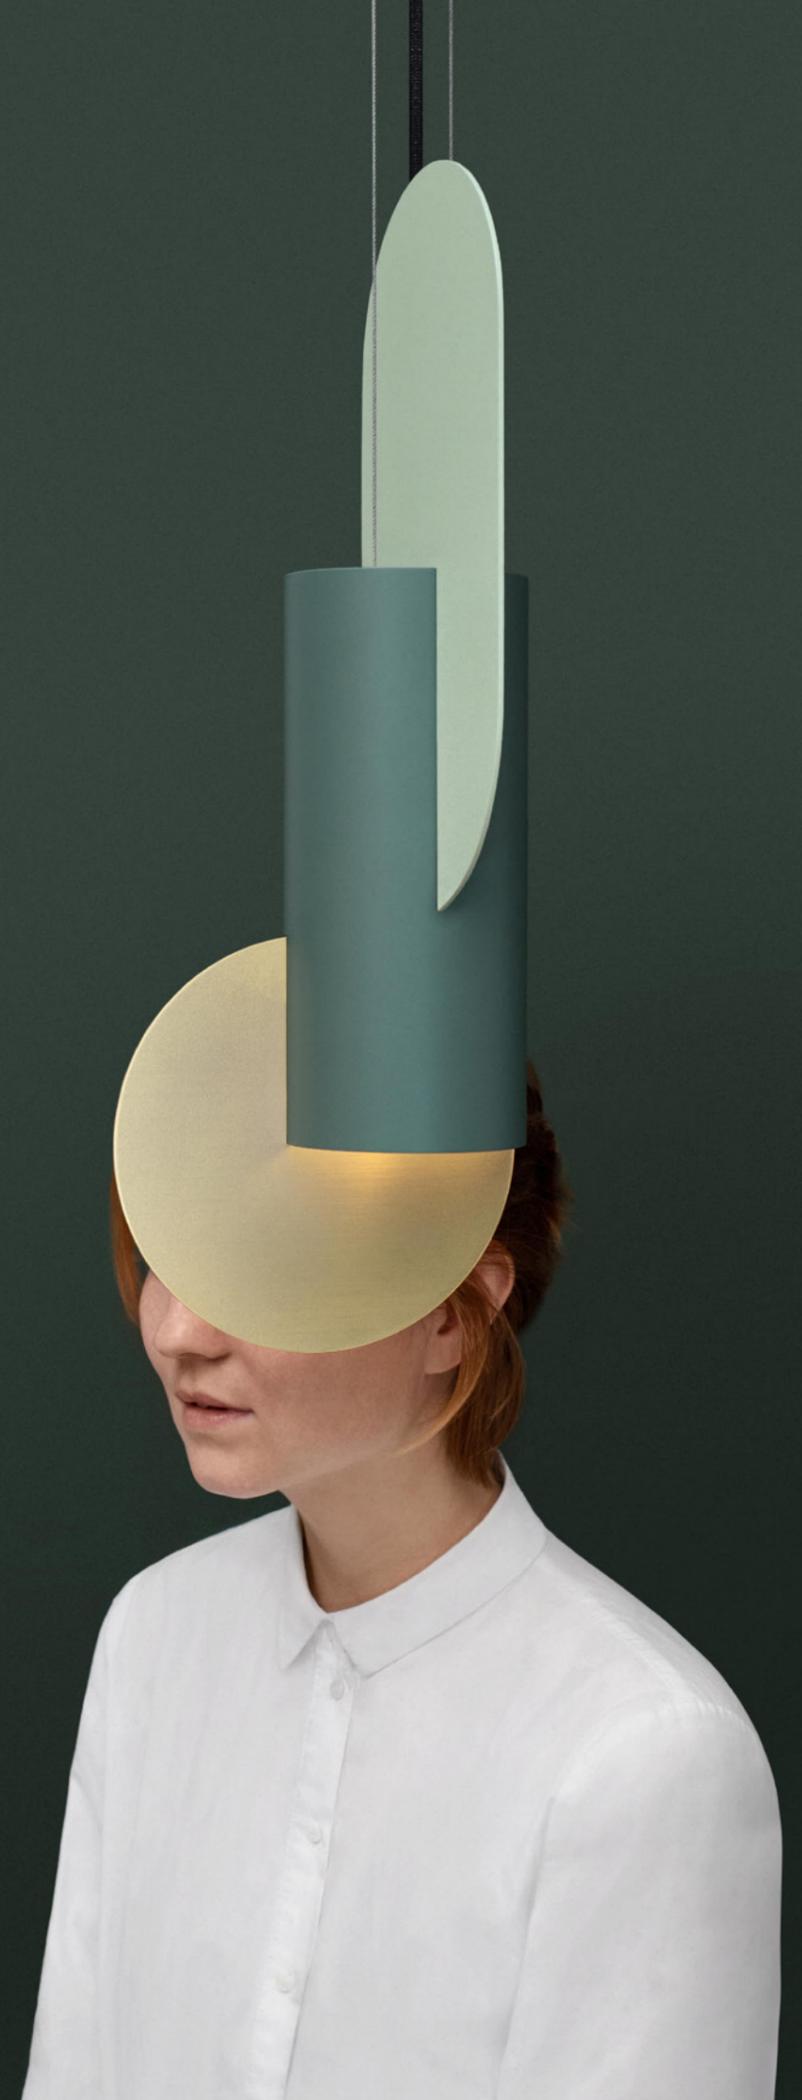

“Suprematic” collection of lamps is inspired by the geometric works of Kazimir Malevich.

Suprematism is a modernist movement in the art of the early twentieth century, focused on the basic geometric forms, such as circles, squares, lines and rectangles. The geometric structure of the lamps will always look like a small art objects in your house.

The collection is inspired by the Suprematist art movement of the early twentieth century.

LAMP SUPREMACY ONE, THREE CSS

Surround yourself with the things that light up your mood and resonate with your soul.

Kateryna Sokolova, NOOM Co-Founder

Center our pendant Suprematic Lighting over any interior arrangement to create an individual ambiance of your home.

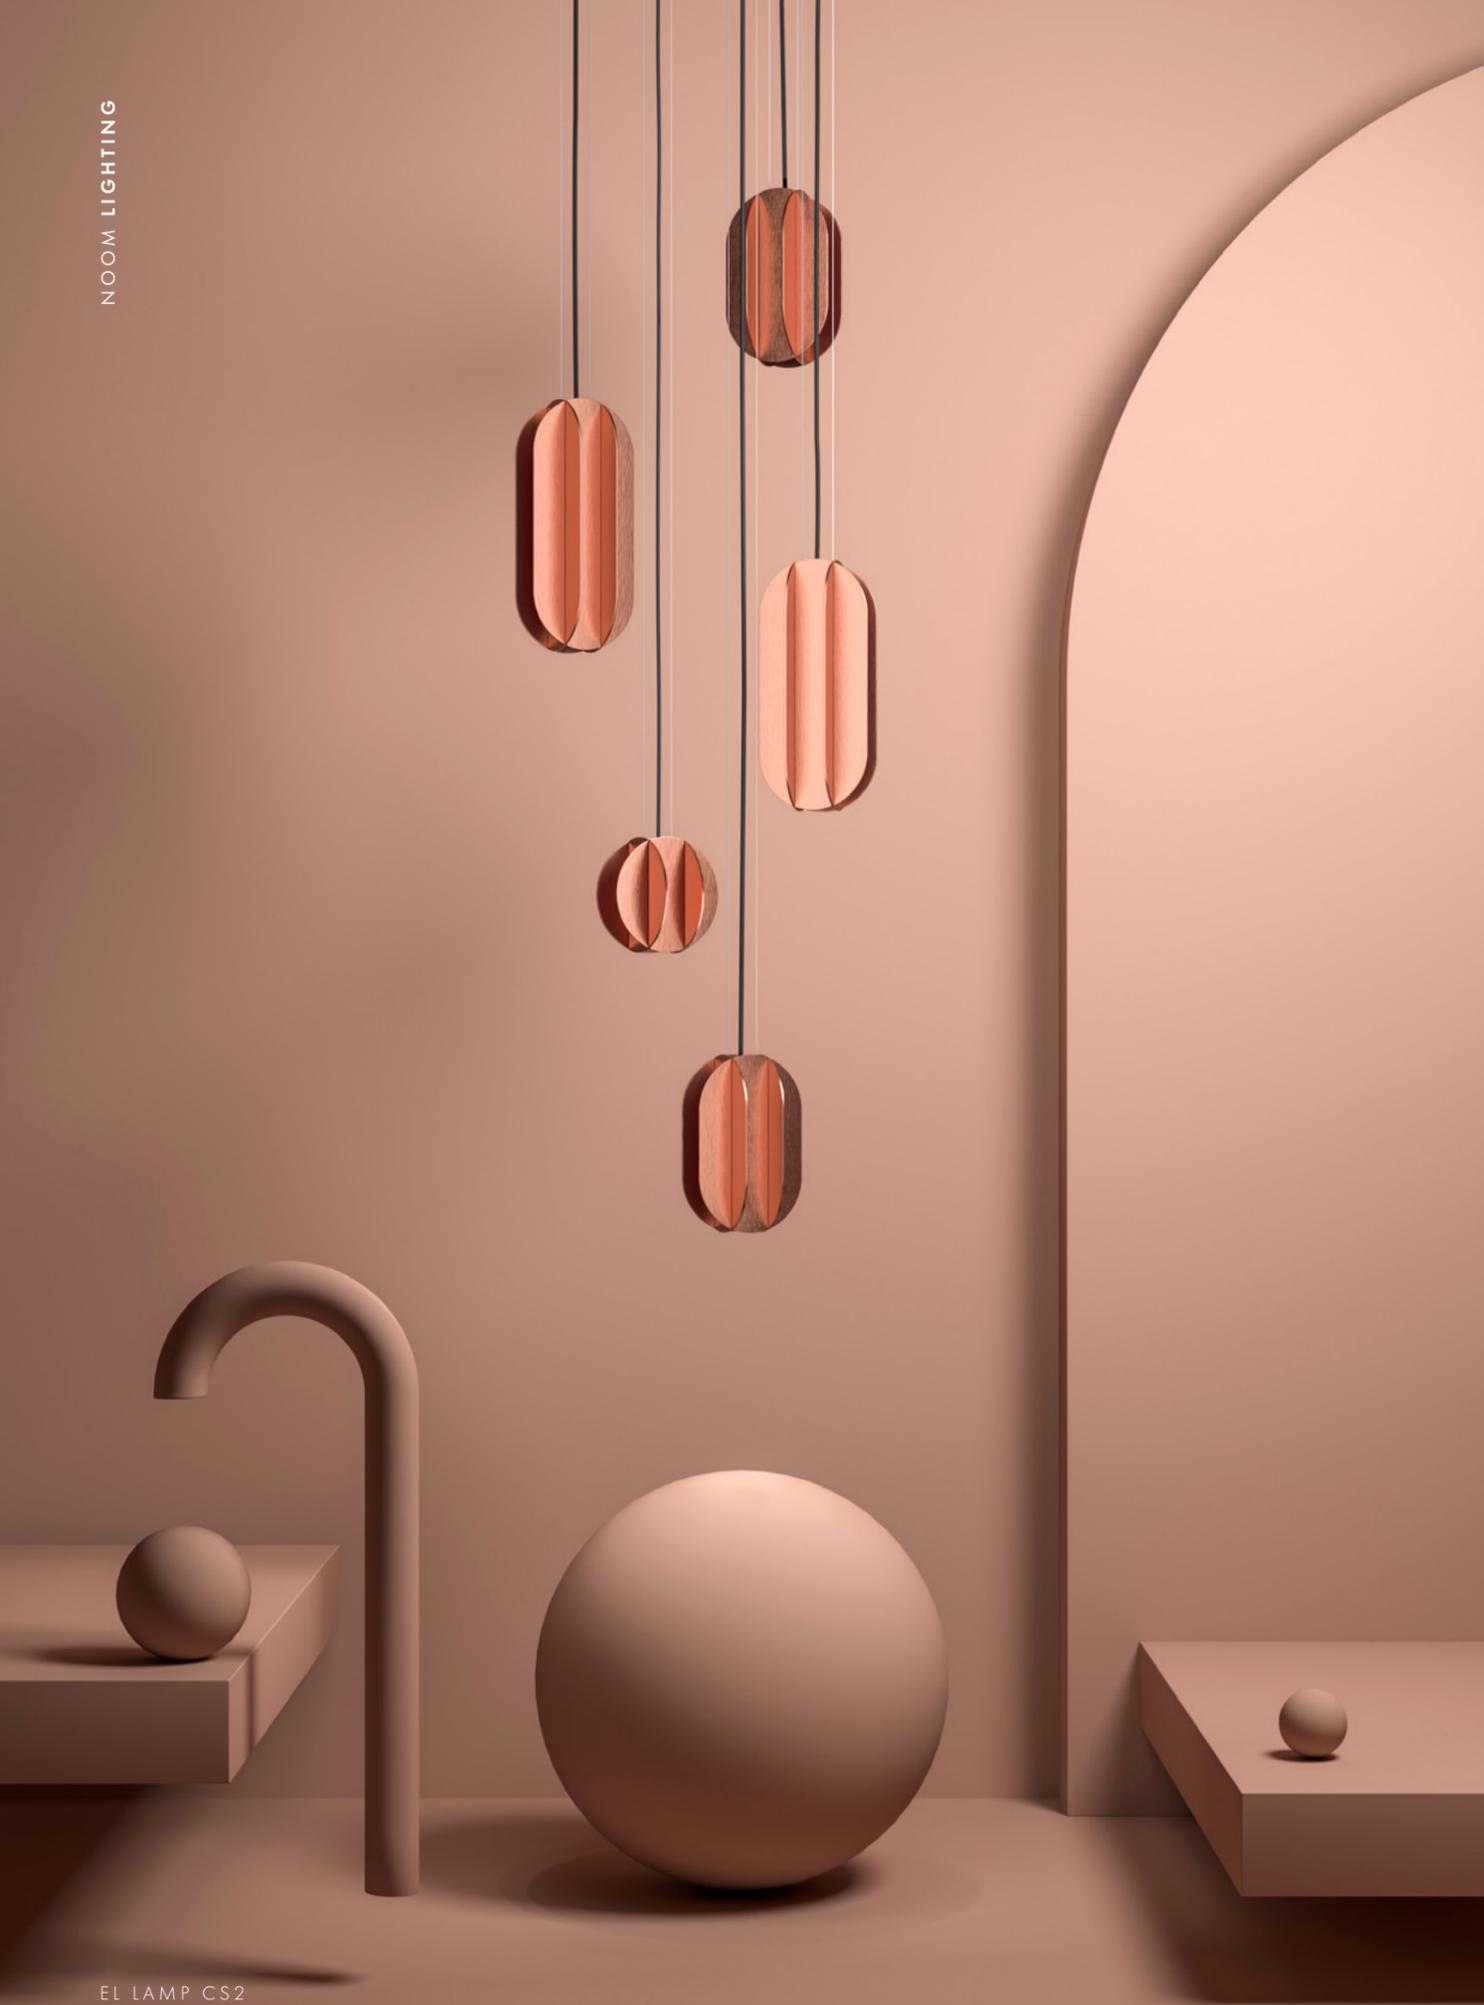

LAMP SUPREMACY ONE CS1

Every single piece involves careful manual work of our craftsmen.

The sleek and stylish design scheme of EL lamps makes them perfect for illuminating the objects in both household and commercial spaces, highlighting with an accent light.

To the Suprematist the visual phenomena of the objective world are, in themselves, meaningless; the significant thing is feeling.

Kazimir Malevich

The structural series of EL pendant lamps combine modernist and contemporary looks, working in versatile interior contexts as a cluster or a item.

DECOR

SET OF 7 CANDLE HOLDERS ORB CS1

ORB is a set of seven metal candle holders stacked on top of one another to form a modern spherical sculpture. Designed to be functional, each candle holder has two sides to hold long and tealight candles. The collection comes in solid brass and stainless steel making it look charming in any interior setting as a series of seven candle holders or as a single sculpture.

The name of the collection, the shape of the whole sculpture and the number of holders are all inspired by the mystifying universe. Featured by immense and bizarre nature, it has always attracted people at all times. A celestial sphere, characterized by the ideal circular shape, is also manifested in the company name – NOOM – that is semantically associated with the reverse side of the Moon.

SET OF 7 CANDLE HOLDERS ORB CS1

ORB is a set of seven metal candle holders stacked on top of one another to form a modern spherical sculpture.

I think the universe is pure geometry - basically, a beautiful shape twisting around and dancing over space-time.

A. G. Lisi

SET OF 7 CANDLE HOLDERS ORB CS2

SET OF 7 CANDLE HOLDERS ORB CS2 45

FURNITURE

New NOOM furniture collection is dedicated to the 100th anniversary of the founding of the Bauhaus School in Germany.

Ideas of functionalism and conciseness, the combination of craft and art, buildings and objects formed by a composition of simple geometric shapes, are still relevant. NOOM furniture is a tribute to the great thinkers who formed the modernist principles and brought them to life.

The designer has “gathered” the shape of this chair from balls and cylinders. A round pillow and an ottoman appeal to interact: to pump, to play, to bubble.

All products in the collection are called by the names of famous modernist artists and architects.

Gropius Low Chair upholstered in soft Boucle fabric brings a calm and cozy vibe to every interior.

Spheric ottoman appeal to interact: to pump, to play, to bubble.

LOW CHAIR GROPIUS CS1, SPHERIC OTTOMAN

Gropius Chair is dedicated to the 100th anniversary of the founding of the Bauhaus School.

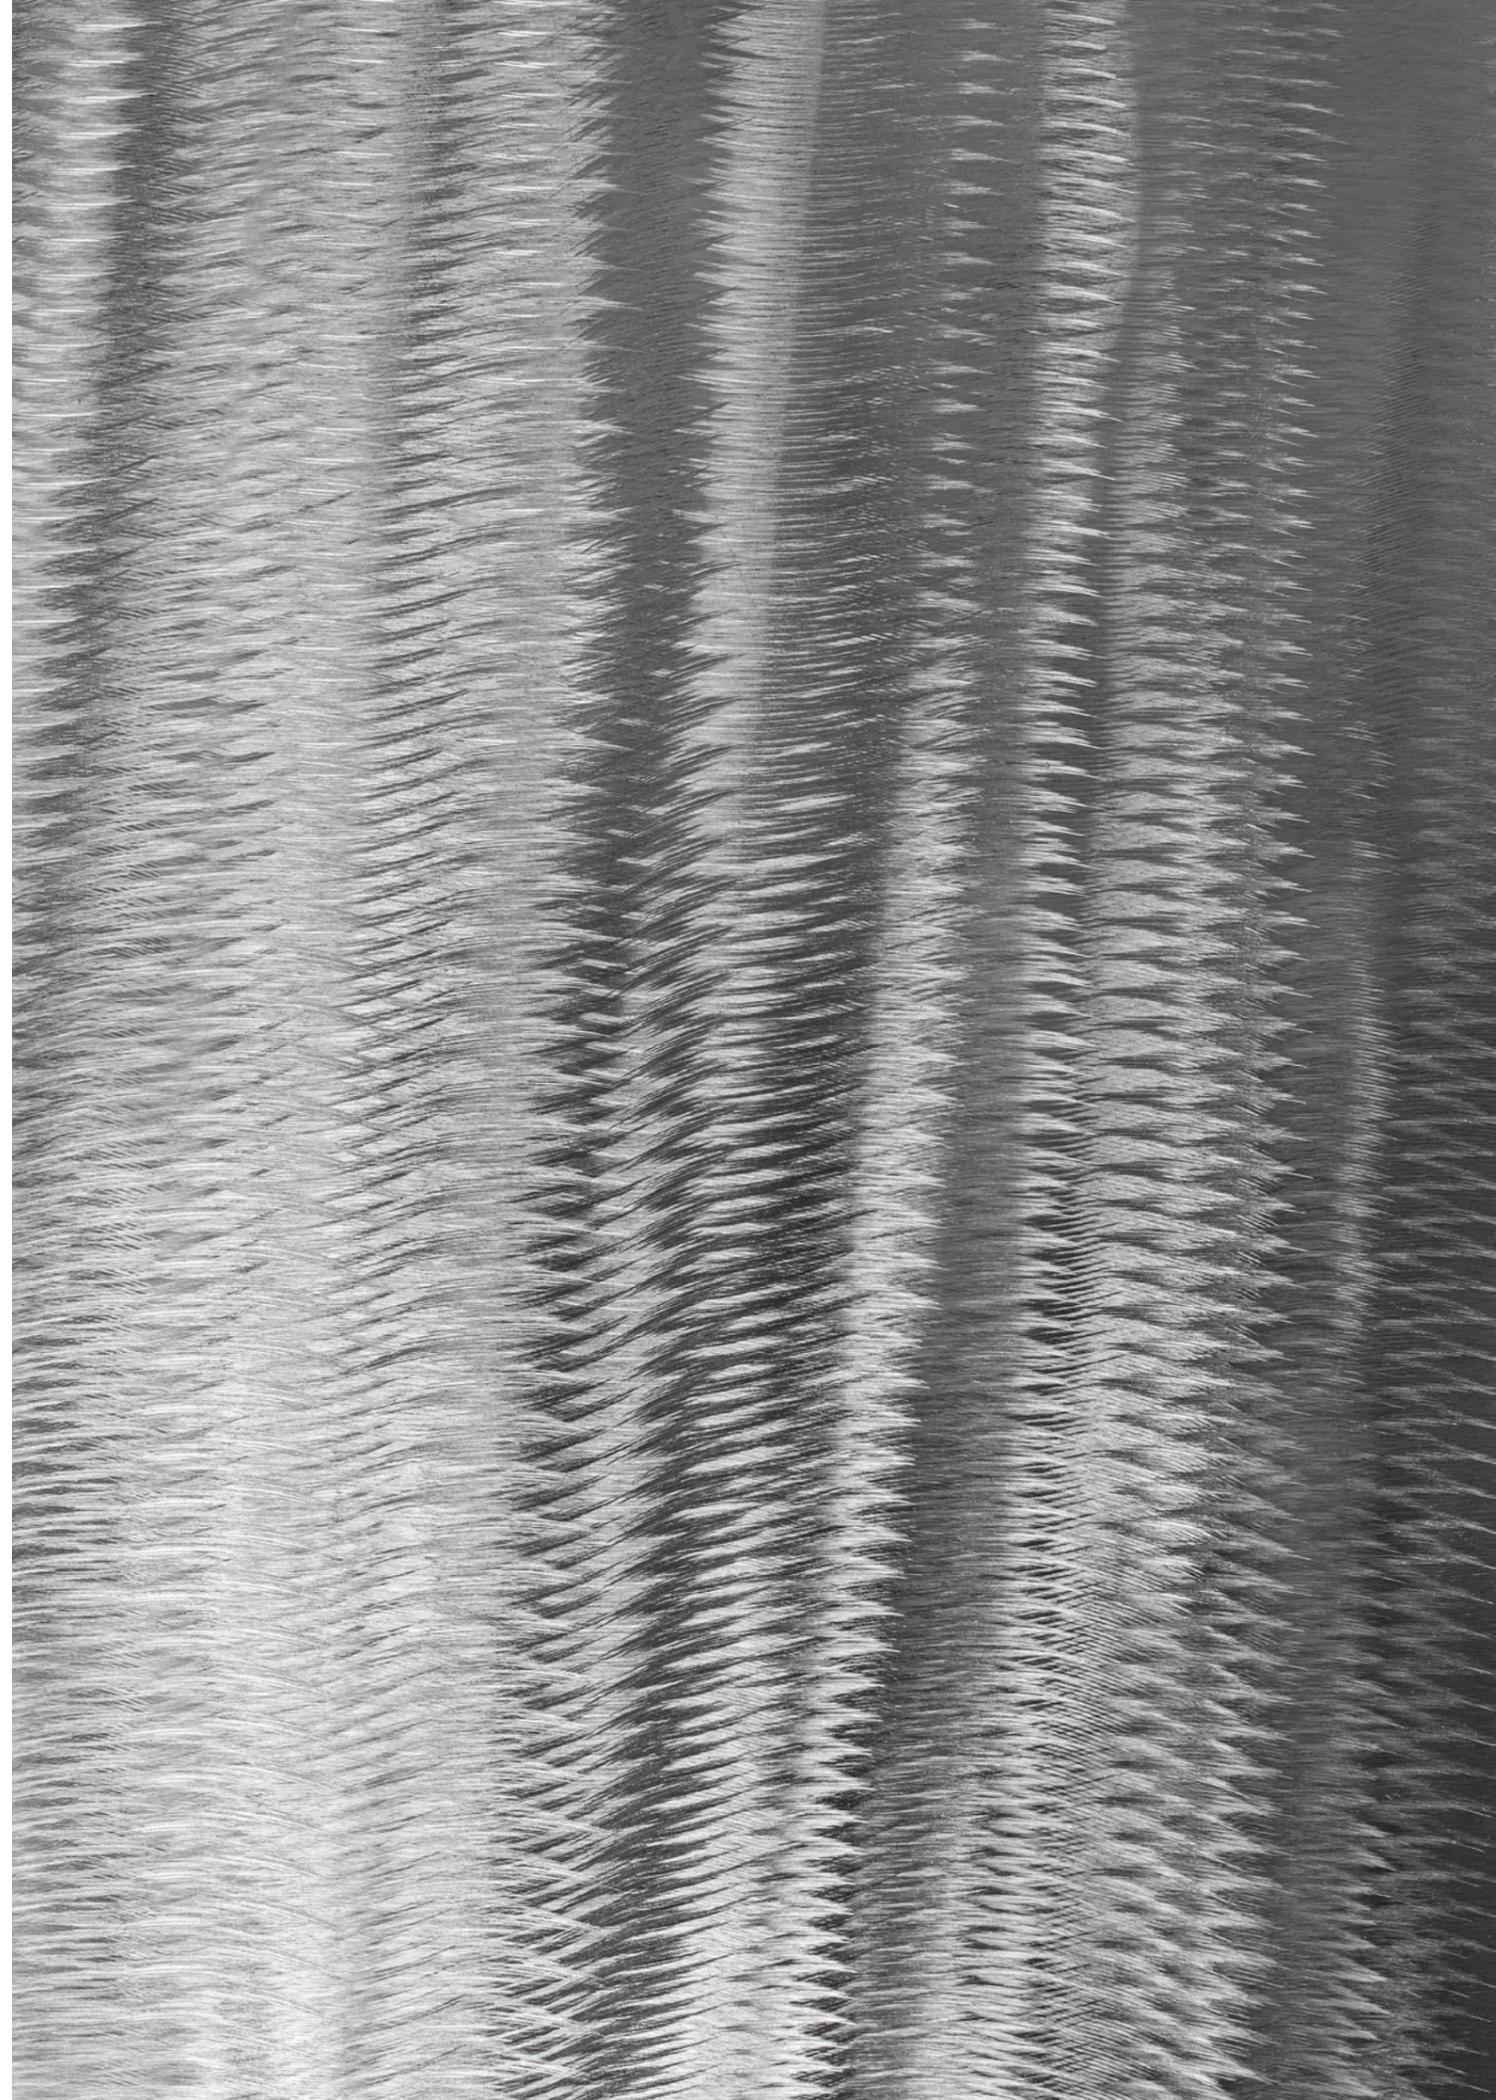

CHAIR GROPIUS CS1

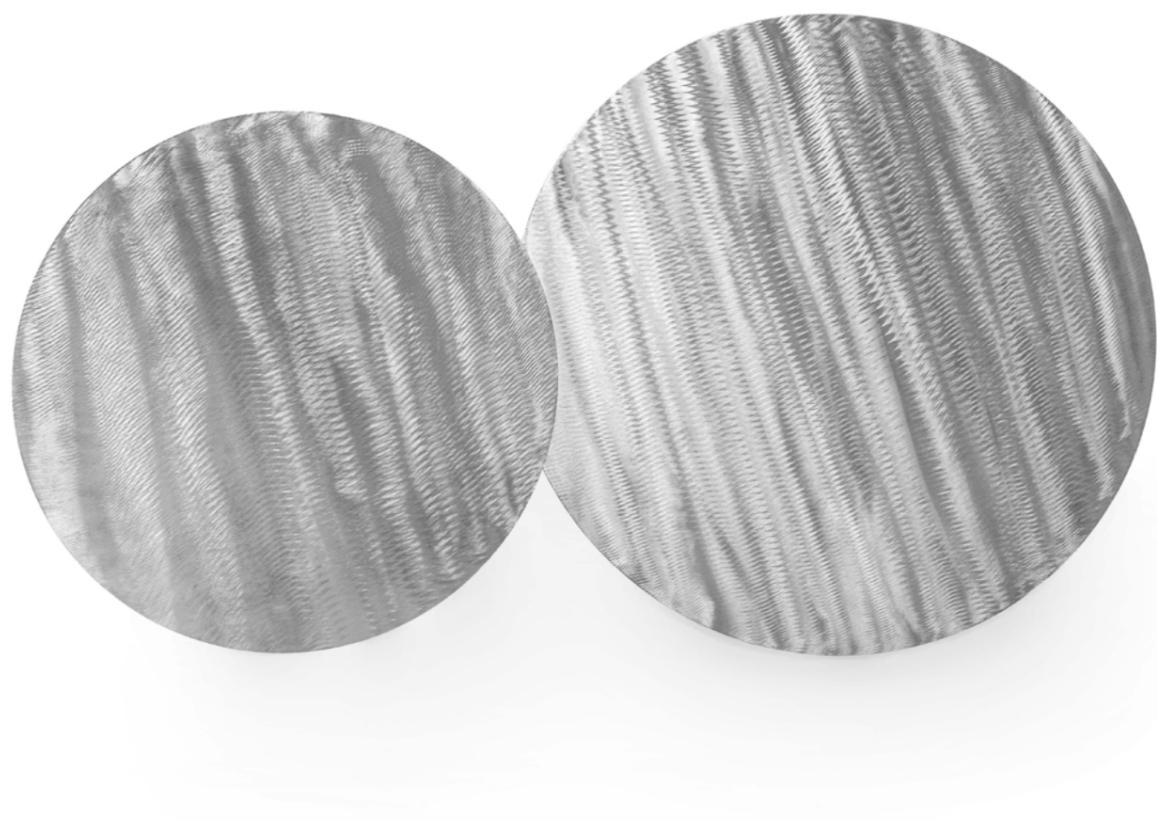

Embrace softness and coziness.

LOW & HIGH COFFEE TABLE BRANDT CS1

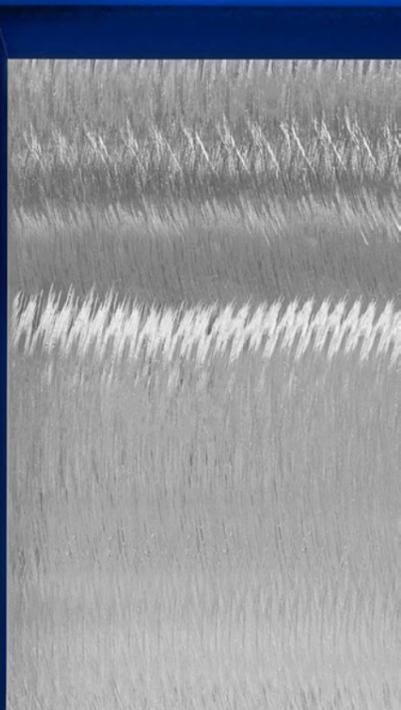

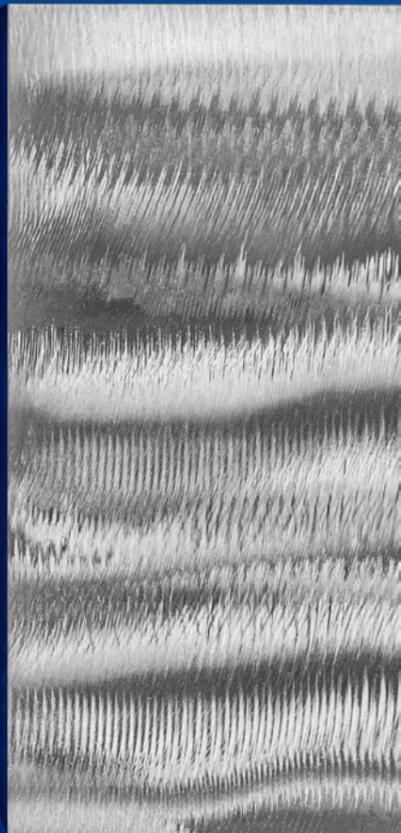

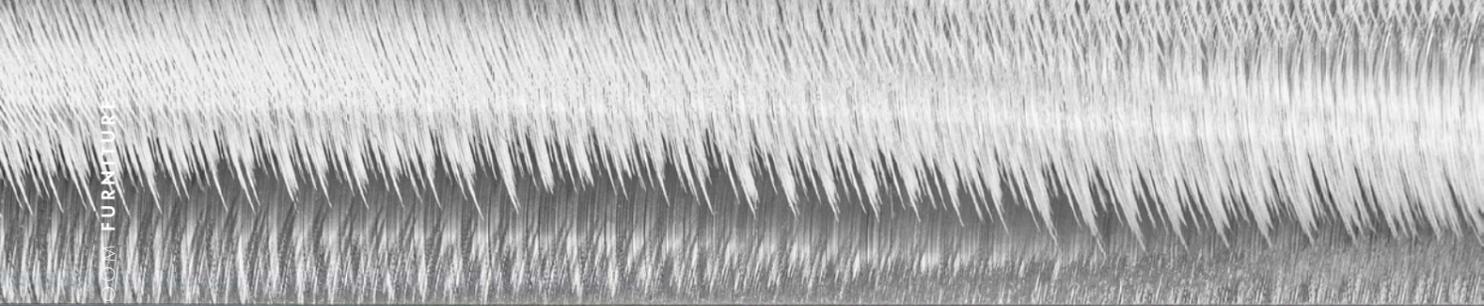

While looking at these tables for the first time, you get the feeling that the basic element of the interior is clear, familiar and understandable. However, the things in this edition are universal only in their functionality. The aesthetic game with geometry typical for the NOOM brand makes accents on familiar items. The tabletop is held by three cylindrical legs of different diameters. This gives asymmetry to the model, however, as much as it is appropriate in a concise manner.

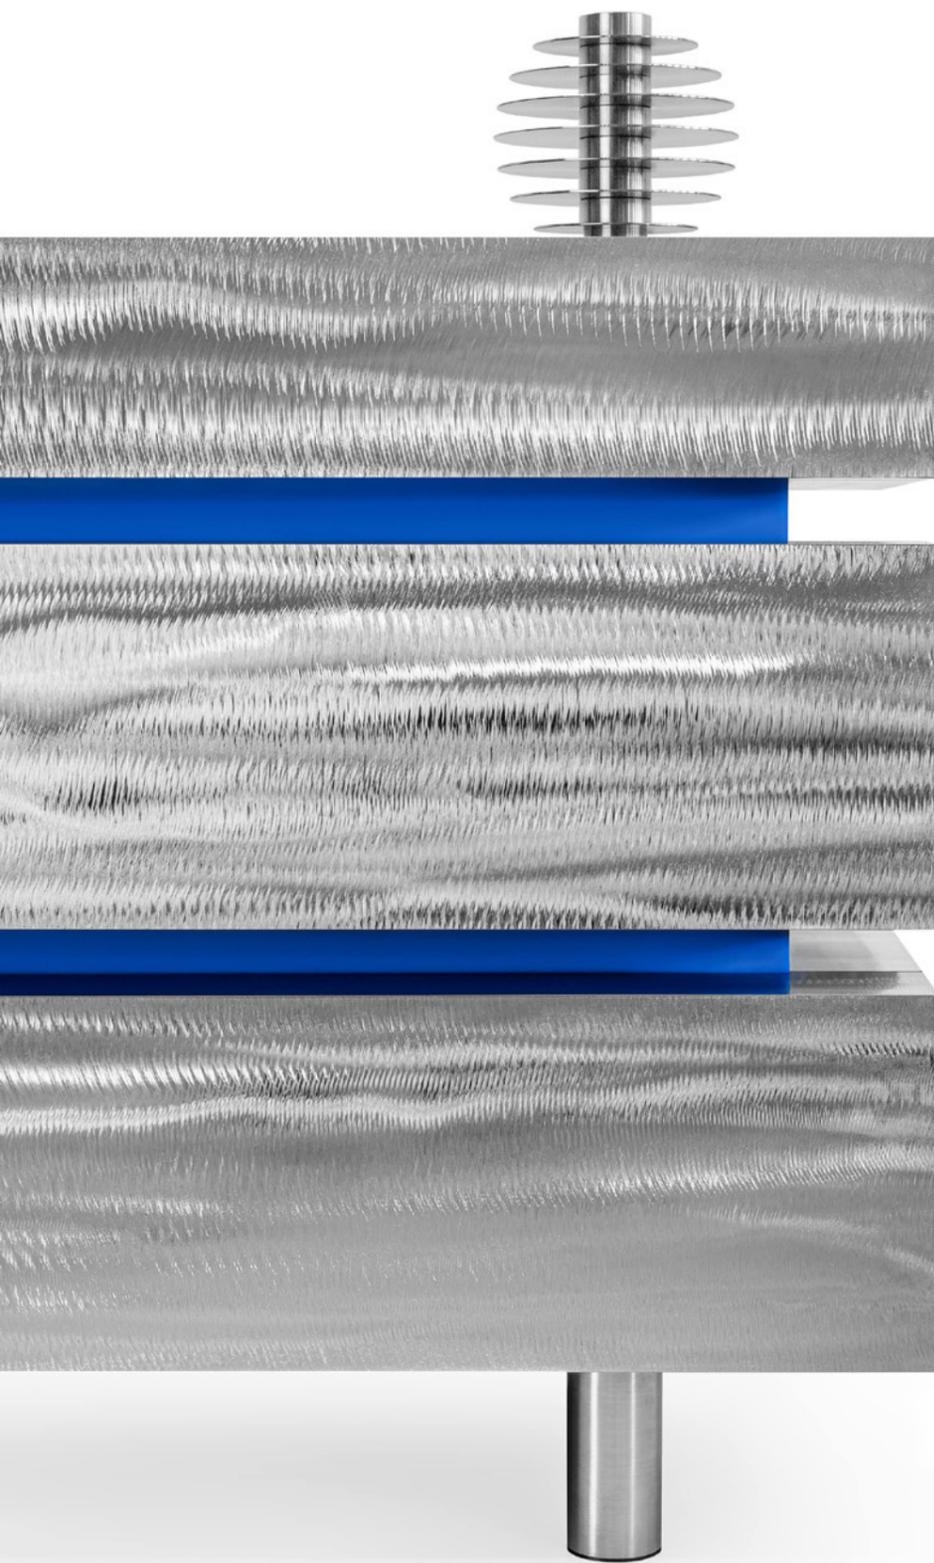

Hand brushed pattern on the metal surface looks like ripples on the water.

Coffee Table Brandt will always look like a functional art object in your house.

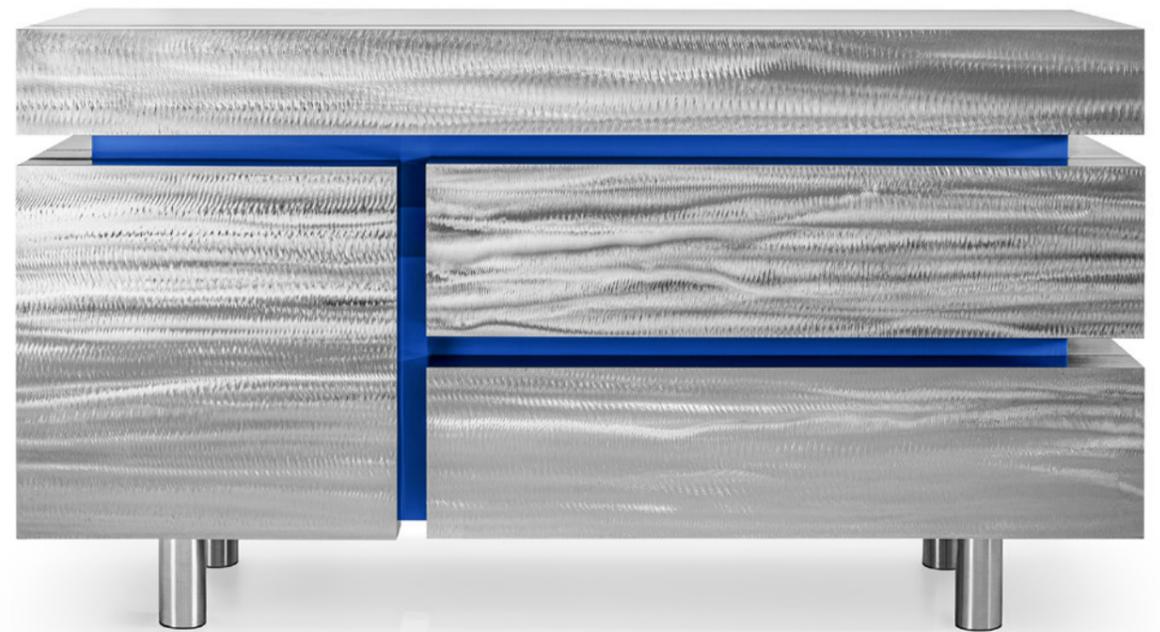

The metal sideboard has four drawers and is contemporary, massive, and elegant at the same time. This is a kind of understanding of modernist aesthetics, where the subject consists of a group of simple geometric figures. The graphic drawing of the facade is formed by the notches between the drawers. Hand brushed pattern on the metal surface looks like ripples on the water.

SIDEBOARD GERRIT CS1

Hand brushed pattern on the metal surface looks like ripples on the water.
