MARMINI II

MARMINI II is, despite its minimalistic architectural appearance, a comfortable upholstered stool. It is composed of three volumes that apparently do not seem to be able to stay together, two hard parts in 'Fior di Pesco' marble that seem to want to detach themselves from the central part of the upholstered soft padding. Three triangular shapes are pulled together in a compact final sculptural form. Also here the design philosophy is to move and play in between the notions of functionality and sculpturality.

THE DESIGNER

Hannes Peer Architecture is an architecture and design studio that specializes in luxury retail, hospitality and residential spaces, founded in 2009 and based in Milan.

The constant theme is the search for eclecticism as well as high quality in the design at all scales through the study of the close relationship between architecture, historical context and new technologies mediating between craftsmanship and industrial production.

The language used in the design is stratified and eclectic, uniting poetic vision and rigorous design. The studio's projects are recognizable by their strong iconographic identity, based upon continuous research on colours and materials and the contamination between the various contemporary languages.

SPECIFICATIONS

MATERIALS & FINISHES

BASE

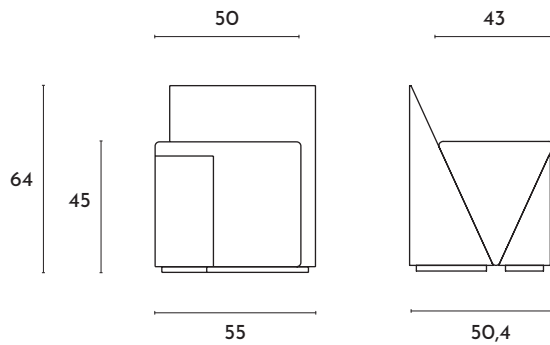

Fior di Pesco marble

UPHOLSTERY

Helsinki Naturel
Lelièvre Paris

TECHNICAL DRAWINGS

PACKAGING INFORMATION

COMPONENTS	FINISHES	PACKAGING	DIMENSIONS	WEIGHT	QUANTITY
01 Stool	Marble	Wooden crate	L.70xL.60xH.70	90kg	1

Dimensions are in centimeters.

DELIVERY & MAINTENANCE
