

Rose

design Billy Giuliani

Rose Wood

design Billy Giuliani

Due petali di multistrato rivestiti in tessuto, pelle o ecopelle si sposano con le basi in faggio tinto o laccato in una simbiosi naturale. Rose è una seduta caratterizzata da linee sinuose che, nella versione poltroncina, si estendono in due ali avvolgenti e creano un appoggio confortevole per le braccia.

Two plywood petals covered in fabric, faux or genuine leather, combined with stained or lacquered beechwood bases in a natural co-existence. Rose is a chair characterized by sinuous lines which expand, in the armchair version, into two enveloping wings that also serve as comfortable armrests.

Due petali di multistrato rivestiti in tessuto, pelle o ecopelle sono adagiati su basi in tondino verniciato. L'alternanza di linee spezzate e morbide della struttura riprende le curve della seduta mentre, nella versione girevole, le quattro razze in metallo donano senso di stabilità.

Two plywood petals covered in fabric, faux or genuine leather fitting snugly atop lacquered metal bases. The subtle bends of the slender rodding mirror the chair's fine lines, whilst in the swivel version, the four spurs convey the idea of stability.
