Description

The influence of Parisian couture clothing can be seen in this elegant and irregular bouclé upholstery textile. The pearl effect yarn is used in both warp and weft giving a luxurious handle and a sophisticated appearance. The sixteen colourways range from tonal through to contrasting ‘salt and pepper’ combinations.

Description

The bouclé textile draws inspiration from astrakhan fur, takes two ways. Karakorum represents the cotton wool and viscose bouclé. Aesthetic features include: soft to the touch and valuable brightness, accentuated by a slight mélange effect which adds depth to the colour. Karandash is the twin variety, with a range of matt colours and a wool and cotton composition solely. Colours, the opaqueness of the surface and style are all modern elements

Description

Divina MD is an upholstery textile designed by Finn Sködt. Available in sophisticated, rich colours, which reveal hidden depths as the perspective of the viewer changes, it makes a strong colour statement. In addition, thanks to its smooth, directionless and consistent surface, it complements the shape of furniture very well and is ideal for organically shaped furniture.
