## SCULPTURAL PIECES FOR SOPHISTICATED INTERIORS

## THE FRENCH HERITAGE

Art Deco is a major aesthetic movement that emerged in France just before World War 1 and dominated the artistic world until the decline of the late 30s. It succeeded the exuberance of Art Nouveau and returned to purer and bolder forms while offering both a geometric and decorative style. Art deco is a major inspiration in La Chance approach to the theatrical approach of interior design and the combined use of materials and textures.

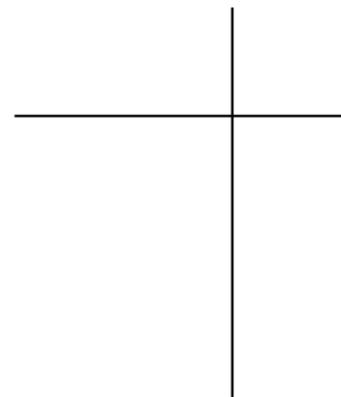

As a designer and decorator, Jacques-Emile Ruhlmann is the leading figure of the movement and established both the aesthetics and theoretic values of Art Deco. Ruhlmann defined himself as an "ensemblier", meaning 'the one who puts together' in French. His interiors reflected this idea and combined his strong personality creations to create a rich but consistent decor for the elite of his time.

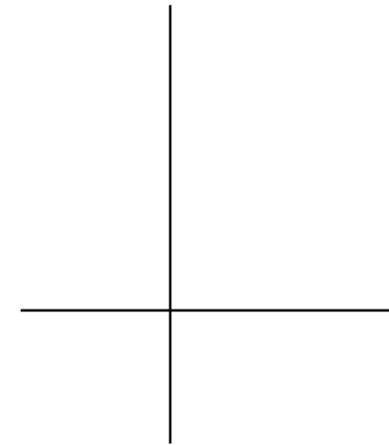

La Chance follows this legacy in a modern and creative way :

"As opposed to the Japanese sleek and pure design, or the conceptual Dutch and flamboyant Italian, French furniture is about décor, the idea of décor is central to La Chance".

The brand makes a contemporary transcription of this spirit through re-editions of Jacques-Emile Ruhlmann creations, one of the undisputed masters of this period. His aesthetical and functional pieces remain astonishingly modern, more than 100 years after they were designed by the master.

The accessories collection of La Chance is based on this French Art de vivre : beautiful objects to go through your everyday routine with style.

## MATERIALS & CRAFTSMANSHIP

“Our love for beautiful materials is guiding the creative approach”. The iconic designs are reinforced by the emphasis on noble and honest materials such as marble, solid wood, metal, cork, leather, blown glass, and pure wool from New Zealand for the rugs.

All La Chance products are made in human scale production units in Europe, except for the rugs that are custom made in India. Over the years, La Chance has developed a strong and respectful relationship with its partners : “Our highly qualified artisans combine traditional techniques and innovative processes to manufacture La Chance products. Each piece passing through the hands of our craftsmen is the object of a particular attention”.

In addition to the main collection, La Chance offers custom products and bespoke services to meet the requirements of each client, both for residential, hotel and commercial projects.

# THE DESIGNERS

La Chance produces the works of a cosmopolitan selection of the best designers of the contemporary design scene. Each designer gave his interpretation of the French spirit of La Chance through the prism of his cultural background to create a rich and diverse, albeit consistent, collection.

From the beginning of the adventure, La Chance has been entrusted by the best designers while also still searching for emerging talents and scouting for the most promising profiles worldwide.

La Chance team gathers 26 designers and 14 nationalities.
