WONDERGLASS

HORIZON

by John Pawson, 2019

Horizon Light is a pendant that, without being obtrusive, blends into modern interiors. Its body ranges from translucent to opaque and is hand blown with a balloton technique which creates the beautifully textured surface. "I wanted something that disappears in the day time, and does the opposite at night." - John Pawson.

MATERIALS

Body | Blown Glass

Structure | Metal

DIMENSIONS

Ø 60 x H 1040 x W 900 MM

LIGHT FITTING
