### BRUTALIST LAMP

Brutalist lamp is inspired by the architectural Brutalism movement of the mid-20th century and architectural masterpieces by Le Corbusier and Frank Lloyd Wright.

The Brutalist lamp challenges the perception of materials and form. Brutalist is a sculptural table lamp made from cast lightweight concrete with a hidden light source. The lamp consists of merged geometric shapes, where the composition of elements reflects the need to both hide and maximize the light source. The contrasting concrete material creates a nuanced surface.

Hand glazed natural product therefore the colours may variate.
