### DUSK TABLE LAMP

Inspired by the architectural Brutalism movement of the mid-20th century and architectural masterpieces by Le Corbusier and Frank Lloyd Wright the Dusk and Dawn lamp challenges the perception of materials and form. With its layered shades that playfully divides the light into a rhythm of exposure. The almost eclipse-like feeling contributes to an intimate and cozy atmosphere, creating an art piece in its self.

These lamps have become a new way of presenting and integrate light design in interior schemes. The raw handmade oxidized aluminum base creates stability and continuity to the lamp and while undergoing a special treatment, the two aluminum shades oxidizes into a rich textured and almost concrete like surface that gives depth to the smooth light.
