ABOUT 101 COPENHAGEN

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike.

OUR CREATIVE DRIVE

The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minimalist aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression - creating unique and timeless pieces without compromising on playfulness and individuality.

OUR DESIGN TEAM

An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyl Dahl and Kristian Sofus Hansen. Merging their backgrounds and experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections.

Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. Trained as an architect, the third designer, Nicolaj Nøddesbo, adds knowledge on innovative light solutions and timeless novelties to the 101 Copenhagen collections. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.

Tommy Hyldahl, owner and main designer

With a background in fashion having spent years forecasting and analyzing future trends, Tommy Hyldahl has a natural attention to detail in materials, historical references and original design concepts. Similar to the process in fashion, the design at 101 Copenhagen begins with an idea that evolves and develops into a full layered narrative of each collection.

Kristian Sofus Hansen, main designer

With a background from the Royal Danish Academy of Fine Arts and having spent time living and studying in Japan, Kristian Sofus Hansen brings aesthetics and simplicity to the Danish design heritage and knows how to translate and transform these little signature details into the collection of 101 Copenhagen. Mainly designing sculptures and objects, it is a never ending source of inspiration for Hansen, whose aim is to create characteristic and functional design to remember.

Nicolaj Nøddesbo, designer

With a background from the Aarhus School of Architecture, Nicolaj Nøddesbo is developing innovative light solutions and timeless novelties for the 101 Copenhagen collection. Since joining the team in 2017, his mission has been to add personality and character to functional pieces, focusing on materiality, tactility and a sense of spatiality when creating minimalistic and sculptural design items.

CERAMICS

SUMO

Sumo celebrates the human body. As a reference to the Japanese sport Sumo, all vases are voluminous in size and shape, resting on top of narrow pointing legs. All vases have different openings from the traditional narrow vase openings to double openings and deep carved openings. The Sumo collection looks at the contrast between familiar vase shapes and the addition of more artistic, abstract ideas and details, questioning our individual perceptions of the shape of a vase. The Sumo collection is designed as a stand alone artistic object, yet forming a united family of objects when gathered. Your choice.

Designed by Kristian Sofus Hansen & Tommy Hyldahl.

WING

It is all about gravity and a sense of floating through the air. Wing is a sculptural collection of bowls that makes one want to be lifted into thin air even though its presence is very much grounding as well. The silhouette is made up of two wings and a single cylinder-shaped leg as a steady contrast and the bowl is casted in ceramic. Use Wing as a container or as a standalone art piece on the table. Note that it is not 100% waterproof.

RUIN

Like the name suggests, the Ruin vases are inspired by archetypical ruins and the classical shapes still adorning the landscape as a reminder of what once was. Perfect for growing plants, the tower-like design has different openings that hides and reveals the plant, while also creating a construction that provides room to grow. A large opening on one side easily fits a plastic pot, without being seen from other angles. The Ruin vase is equally suitable for dried flower decorations or as a stand alone art piece. As it is a hand glazed natural product, the colours may vary slightly and it is not waterproof safe.

ORIGAMI

Paper folding is an ancient art form in Japan entitled Origami and the series of vases sharing its name are deeply inspired by the meticulous and organic tradition. Imitating two pieces of paper folded towards each other, the vases are a refined and playful physical celebration of the technique. Soft meets sharp. Just like paper origami, it takes patience to truly master the method, so it took several attempts to achieve the current low falling round shape and thin opening of the vases. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

BOURGEON VASE

Named after the French word for sprout or shoot, the multifunctional, voluminous Bourgeon vase thrives to highlight and uplift a plant. Physically lifting the plant half a meter from the floor with its removable upper platform, it is suitable for both plants, single flower stems or tall bouquets. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

GUGGENHEIM

GUGGENHEIM

The connection between the sharp archetypical geometric lines and thin silhouettes of the Guggenheim collection creates a decorative, optical illusion. Its three dimensional form is intriguing from any angle. The texture of the handmade surface beautifully catches the light and becomes an artistic object in the space. The hand glazed ceramic collection may vary slightly in terms of colour and it is not 100% waterproof.

COBRA

COBRA BLACK

A tribute to the Cobra Arts Movement of the 1960s, the collection is the epitome of quirky vases that will add joy to any interior setting. Think whimsical, soft and organic shapes unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists way of working, the series takes its starting point in naive hand sketches leading to bodily silhouettes. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

DUCK

Reminiscent of little, individual three-legged characters or friendly creatures, the Duck series is a playful and exuberant addition to more minimalist series of treys, vases, bowls and pots in a modern interior. Yet, true to the design manifest of 101 Copenhagen, the collection is held in natural colours in order to fit into the Scandinavian home. Duck comes in various different shapes, sizes and colours - like individual family members gathered around a table. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

SPHERE

SPHERE SQUARE HEXA

The Sphere collection has become synonymous with the visual language and the signature series of 101 Copenhagen. The series is a family of unique silhouettes and textures gathering in a decorative and sculptural manner. Elegantly sculpted, each vase is finished with an intricate ornate detailing. Inspired by ancient Chinese vases, a palette of faded earth tones is characteristic of the Sphere collection which was developed in close collaboration with highly skilled ceramists, ensuring the precise contrast between the smooth shapes and sharp edges. The floor vase, Sphere Giant, is scaled up to a stunning 1 meter and can be placed outdoors; however, not in minus degrees. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

TRIBAL

TRIBAL

The Tribal collection is a series of vases designed as a sculptural take on the archetypal idea of a tribal mask. Place single flower stems in the narrow top opening or simply leave the vase as a standalone art object. Like open mouths on pedestals, the masks are a beautiful, shaped item in calm, soothing and dusty terracotta and grey colours. As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

KABIN

KABIN

Kabin is a series of vases inspired by the classical, simple forms found in Japanese craftsmanship. The large table vases offer the same stability and complexity as traditional Japanese tea bowls, and their oval-shaped bodies rest on top of a small foot or pedestal, adding refinement to the classic form. The Kabin series is a love story between Japanese and Scandinavian craftsmanship, resulting in this minimalist collection of vases in four different sizes. As it is a hand glazed natural product, the colours may vary slightly and as it is not 100% waterproof, a bag for fresh flowers is included.

Like a design process frozen in time, the Offset vase is a distortion of the familiar rounded shape being cut. It challenges the idea of a vase and drastically changes appearance depending on the angles it is viewed from: From an imitation of a traditional vase to a sculptural object. Offset is made from fibre concrete and comes in two sizes. SCULPT ART

SCULPT ART

The Sculpt Wall collection is a series of reliefs for hanging on the wall as pure artistic intentions. The sculptural pieces pull their inspiration from brutalist architecture details, design history and concrete as a surface and material in American Minimalist art of the 1960s. Each piece is handmade from a sustainable concrete-like material of recycled newspapers, sand and chalk powder, combining artistic work with sustainable production methods. The Sculpt Wall series are available in six different shapes and can easily be hung on a wall with screws and brackets on the backside.

PODIUM

Podium is a means to get the gallery feeling and exhibit your favorite object or piece of art at home. Inspired by architectural façade details, each podium has a carved relief on two opposing sides, creating a beautiful play of shadows changing throughout the day, depending on the direction of light. The podium can be placed both horizontally and vertically, facing a wall or standing freely in a room as it has no backside. Available in three different heights, the podium is just as suitable for use as a side or coffee table.

BIG FOOT

BIG FOOT

At first glance the Big Foot collection looks heavy and dense, yet on further inspection, the fibre concrete bench, side tables and coffee table are lightweight and mobile. With nods to brutalist architecture and the world of contemporary sculpture, the cylinder-shaped legs and textured, painted surfaces makes the collection stand out in the crowd.

BRUTUS

BRUTUS

Inspired by the Brutalist architecture movement of the mid-20th century, the Brutus collection comprises a dining chair, a lounge chair, a coffee table, and this stool cast in lightweight fiber concrete creating a unique surface texture increasing mobility. Drawing on traditional Japanese wooden stools, the curved seat and signature cross legs makes for a perfect extra seating around the table. Each piece is hand painted to create a textured, unique surface. Emphasizing the fine balance between sharp architectural lines and a somewhat softer curve in the back and armrest, the Brutus collection is sculptural statement pieces with a compelling seating comfort.

CROWN

CROWN

The collection of tables entitled Crown is cast in one piece formed as a circular tabletop carried by four-cylinder shaped legs. Standing strong and proud, the table is inspired by the bare, structural elements of Brutalist architecture, celebrating the columns, and eluding an attitude towards too many details. The chunky fiber concrete legs enable a large gap between the table edge and legs to emphasize the experience of a massive floating tabletop. The table is available in two sizes and can be used as a single standing side table or stand together as a pair of coffee tables.

CROSS

CROSS

With its geometric shapes and sharp lines, Cross is inspired by the architectural minimalism, with the attempt to create a simple and yet sculptural table of solid marble. The side table is developed in close collaboration with Indian marble suppliers in the search for the perfect homogeneous stone. Each solid marble table consequently reveals deliberate small contrasts in the texture, a surface of gorgeous, faded earth tones and a matte finish. Cross can be used as both a side table and a stool.

PHANTOM

PHANTOM

Characterized by its intentional naive and handmade expression and raw, unpolished surface, the Phantom table reveals its unique casting technique. The series is at once fragile, delicate and bulky in its appearance. The Phantom coffee tables are available in a tall and a low version made of cast iron and hand painted in a beautifully burned antique color, giving the tables a sophisticated and subtle expression.

BOW

BOW

Like a piece of architecture gone astray, the Bow bench & console draws parallels to the old aqueducts from the Roman Empire and classic architectural geometry. Repetition of arches create a beautiful, sleek, yet somewhat box silhouette and the long legs make it seem narrow and light even though the character is anything but insignificant. The bench is cast in lightweight fiber concrete to create a unique textured surface and increase mobility. It is hand painted with multiple layers of paint, creating a strong and resistant surface.

HAKO

Hako is the Japanese word for box or storage, and in the 101 Copenhagen universe it is a furniture collection inspired by Japanese living. Hako features a bar and storage object, console, bench, coffee table and side table. Each product is handmade of massive ash with French bamboo mesh, creating a semi transparent front or top surface. The wooden surfaces smoothly transition into metal frames and fittings, creating a refined modern expression. The characteristic conic shaped legs and slim metal tray is made of plated metal.

DROP CHANDELIER

You almost feel the movement of the Drop Chandelier. As a free flowing sculpture it takes in the space and insists on a life of its own. While The Drop Chandelier collection honors modernist lamp designs of the 1950s, it also celebrates an experimental, innovative approach with its gently curving shades and 14 flexible and functional adjustable arms - creating countless options, variations and angles. The beautifully crafted oxidized, plated and perforated metal body is subsequently hand brushed and the lamp brightens up the room elegantly with a warm, pleasant light.

PAPILLION

PAPILLION

Named after the French word for butterflies, alluding to the focal point of the Papillion chandelier: the seemingly floating lampshades. Six illuminating shades are elegantly positioned in a lightweight metal construction forming the outer shape of a hexagon. The arms are mounted to a rifled center piece, adding a shimmering and reflective quality to the lamp. The 6 light bulbs illuminate the ceiling, while Indirect light filters through the lampshade depending on the material. With its handmade rattan mesh and cognac leather details, the Papillion Colonial is an exclusive reinterpretation of traditional fan lampshades.

BULLET

BULLET

The Bullet collection is characterized by a closed tubular metal lampshade with a smooth carved opening. The opening is covered in a curved piece of opal glass, filtering the light from the light source inside. The collection comprises a chandelier, a pendant and a wall lamp - all made in bronze plated iron and opal glass, creating unique and sculptural lighting experiences inspired by Art Deco.

The chandelier has six adjustable arms positioned in a flexible hexagon setting and mounted on a rifled centerpiece, adding a shimmering and reflective quality to the lamp. Two of the chandelier arms are turned upwards to ensure lighting towards the ceiling, while the other lampshades are facing downwards to brighten up the space below the chandelier.

The linear design of the pendant is sleek and is an ode to the industrial lamps of 1960s kitchens. The lampshade has two carved openings, filtering the light through white opal glass to the space below the lamp. The tubular lampshade is mounted to a sleek metal wall cup and placed directly to the wall in a vertical position. Designed by Kristian Sofus Hansen & Tommy Hyldahl.

PIVOT TABLE LAMP

Named after the French word for an object turning around its own axe or center point, the Pivot lamp is a new classic. With its rotating aluminum shade, it can highlight and project onto an object or part of a space. In a simple, yet refined design and a brushed bronze colour tone, the lamp creates a warm, inviting atmosphere and magically plays with the contrast between light and shadows. The lampshade fits perfectly into the square iron base, enabling easy and smooth rotation.

AD Colonial is the newest addition to the AD Collection, and features two semi transparent lampshades of French rattan mesh. Each lampshade is characterized by a refined cognac leather detail, stitched to the edge of circular lampshades. The natural materials creates a warm and inviting atmosphere, while the French mesh adds a significant play of shadows. The inspiration is found in Mathieu Matégots way of working with perforated sheets in soft and organic ways, as well as vintage style colonial furniture from the mid 20th century.

AD

The round, geometric shape and sculptural construction of the AD Floor Lamp is influenced by the austere Brutalist movement of the mid-20th Century. The oxidized surface is textured and almost resembling concrete as a nod to the architectural source of inspiration. Thin aluminum plates comprising the plate geometry shape enclose the light source providing a smooth light scattering, the lamp is pleasant yet functional in every setting. It looks paper thin from some angles and solid from others playing with the subtle movement of light.

THE MOON FLOOR LAMP

The Moon is a minimalistic floor lamp constructed from geometric shapes, where each component is perfectly balanced to one another. The lamp has two light sources placed as compositional fix points along an oxidized brass arm. A large circular lampshade hangs from the arm as a floating reflector in the space. The brushed brass lampshade is illuminated on both sides, creating a warm and soft lighting. The Moon lamp is mounted to a cylindrical base of unpolished grey marble, stabilizing the structure.

BULL

Inspired by the characteristic use of animal pictures in Danish Modernism from the 1940s to 1960s, the Bull lamp takes its name after the bull-like lampshades of opal glass, providing a smooth light scattering and a characteristic expression. The body consists of an unpolished grey marble base with a lamp arm in oxidized aluminum covered in spun cognac coloured leather, and an upper part in oxidized aluminum that stands in beautiful contrast to the light, translucent glass. This subtle interaction of materials makes the Bull lamp much more than merely a source of light.
