# MARMINI I

MARMINI I is an uncompromised architectural lounge chair built in Verde Alpi, Bianco Carrara and Fior di Pesco marble. To augment the seating comfort, an oversized cushion with a materic Lelievre fabrics covers the entire chaise longue. This lounge chair presents a radical and severe formal shape composed of juxtaposed triangular shapes. This apparently simple form is rendered possible through a complex inner structure that allows the production to use marble of an ecologically reasonable thickness. Simplicity, perfectionism of the shape and excellent craftsmanship exhibit here the natural beauty of the marbles used to build this sculptural piece of furniture, «it puts nature on display».

---

# THE DESIGNER

Hannes Peer Architecture is an architecture and design studio that specializes in luxury retail, hospitality and residential spaces, founded in 2009 and based in Milan.

The constant theme is the search for eclecticism as well as high quality in the design at all scales through the study of the close relationship between architecture, historical context and new technologies mediating between craftsmanship and industrial production.

The language used in the design is stratified and eclectic, uniting poetic vision and rigorous design. The studio's projects are recognizable by their strong iconographic identity, based upon continuous research on colours and materials and the contamination between the various contemporary languages.

# SPECIFICATIONS

## MATERIALS & FINISHES

### BASE

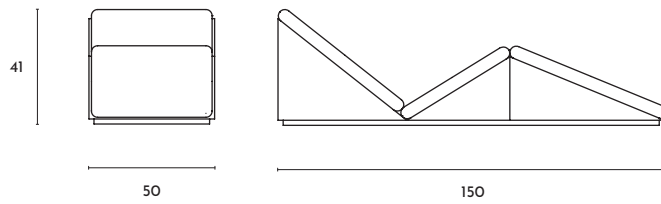

Verde Alpi marble  
Carrara marble  
Fior di pesco marble
