LITHEA

MATERIALS

Marmo e pietra naturale

Data la caratteristica naturale della pietra, ogni singolo pezzo può presentare venature, differenze di tonalità, intrusioni minerali, avvallature, stuccature.

Istruzioni per l'uso e manutenzione

Pulire con normali detergenti di tipo neutro a basso contenuto alcalino.

Si sconsiglia l'uso di prodotti aggressivi quali anticalcare, acidi, abrasivi, sgrassanti forti, alcool.

Atossicità

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

Ecologia

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

Natural stone

Given the natural characteristics of the stone, each piece can present veins, tonality differences, mineral intrusion or stucco-work.

Usage and maintenance instructions

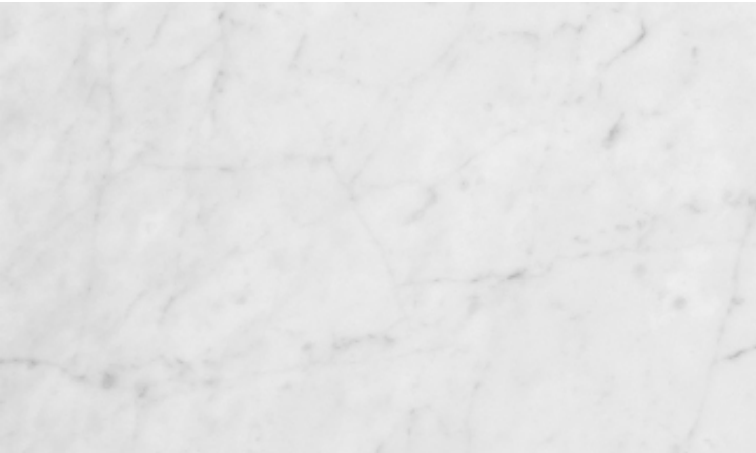

Not advisable are strong abrasive cleaners, grease or calcareous removers, acids and alcohol.

Toxicity

The product does not appear toxic to humans, animals or to the environment.

Ecology

Only discard in appropriate disposals according to rules and regulations in your area.

BIANCO DI CARRARA

Il marmo Bianco Carrara si presenta compatto e uniforme. Il suo colore bianco lascia trasparire un leggero grigio chiaro, diventando via via più scuro nelle venature. Sulla superficie è facile trovare porosità, caratteristica intrinseca del materiale.

BiancoCarrara. It is uniform and compact. A light grey appears through the white and becomes gradually darker in the veins. On the surface is easy to find some porosities which are an intrinsic property of the material. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

BIANCO CALACATTA

Il marmo Calacatta è un marmo di Carrara molto utilizzato per lavori ornamentali pregiati e di lusso. La struttura del marmo Calacatta Oro composta da calcare bianco cristallino e da venature di colore giallo-oro rendono il marmo Calacatta Oro, un materiale di primissimo livello internazionale.

The Calacatta marble is a Carrara marble is widely used for ornamental fine machined and luxury. The structure of Calacatta Oro consists of white crystalline limestone and streaks of yellow-gold, make the Calacatta Oro marble, a material of the highest international level. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

BIANCO FENICE

Il Bianco Fenice è Unalimestone turca apprezzata per la monocromia dei toni del beige/bianco burro. La grana compatta ha i colori neutro tonesurtone.

BiancoFenice is a Turkish limestone held in high regard for its monochrome beige/butter white coloring. The compact grain has neutral shade on shade colors. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

CREMA TUNISI

Il Crema Tunisi è un marmo nordafricano proveniente dalla Tunisia. Ha un colore di fondo abbastanza uniforme. Attraversato da alcune venature scure e da fioriture o salini più chiari. E' un marmo resistente particolarmente adatto anche per ambienti esterni in climi caldi.

CremaTunisi is a North-African marble, extracted from quarries located in Tunisia. It has a rather uniform background color, with some dark veins and some light stains and saline. CremaTunisi is a resistant marble, very suitable for outdoor uses in warm environments, and also for applications in sunny settings. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

BARDIGLIO IMPERIALE

Il Marmo Bardiglio è un litotipo compatto, afanitico e per questo a grana finissima, dal colore d'insieme grigio scuro, di media durezza e di facile lavorazione. Il marmo Bardiglio è caratterizzato da sottilissime venature ad andamento parallelo, di colore grigio scuro, grigio chiaro e, in subordine, biancastre.

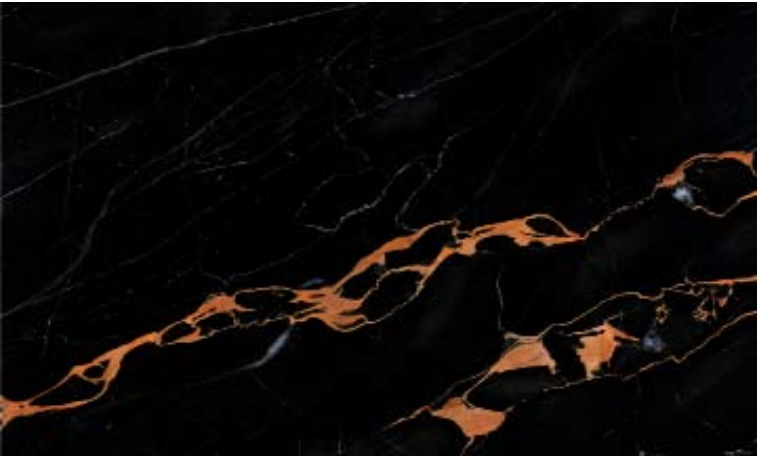

Bardiglio marble is a compact, aphanitic lithotype, with a beautiful and elegant grey background, characterized by very thin dark grey veins running parallel to one another, that could also be, depending by the quarry and block of provenience, light grey or whitish in color. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

GRIGIO TUNISI

Il Grigio Tunisi (o Pietra di Farsena) è un materiale uniforme, forte e solido. Si presenta compatto, dal colore grigio, con sfumature rossastre. Viene utilizzato per interni ed esterni.

Grigio Tunisi. It is also known as Pietra di Farsena, is a uniform, strong and solid material. It is compact, grey with reddish nuances. It is used for both interiors and exteriors. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

NERO PORTORO

Il Nero Portoro (Porta Oro - Nero Giallo nell'Ottocento) è un marmo ligure che prende il nome dall'omonima isola. Si tratta di un materiale scuro, dal colore nero, con venature giallo oro. Da sempre ritenuto un marmo prestigioso, può essere utilizzato sia per interni che per esterni.

Nero Portoro (Golden Door/ Black-Yellow in the XIX century). It is a Ligurian marble which takes the name from the island of origin. It is a dark material, black with golden-yellow veins. It has been always considered prestigious and can be used for both interiors and exteriors. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

PIETRA LAVICA

La Pietra Lavica, come suggerisce il nome, è una pietra di formazione lavica che viene estratta sull'Etna. La sua formazione garantisce al materiale compattezza, durezza e resistenza a tutte le tipologie di clima. Il suo colore dominante è il grigio. Non assorbe e si pulisce facilmente.

Pietra Lavica. It is originated by the lava and is quarried in the Etna. Its formation grants the material compactness, hardness and resistance to all the climate typologies. Its main colour is grey. It does not absorb anything and it can be clean easily. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

GRIGIO BILLIEMI

Estratto dall'omonimo monte e altri facenti parte della catena dei monti di Palermo. Marmo abbastanza uniforme, dal fondo grigio tendente al giallo-rosato, punteggiato di residui fossili e percorso da venature grigie più scure che si intrecciano tra loro. E' estremamente compatto.

Quarried out of the omonymous mountain, which belongs to the mountain chain of Palermo. It is a quite uniform marble, with gray priming coat which verges to rose-yellow, dotted fossil residues and crossed by darker gray venations that twined each other. It is extremely compact. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

NERO MARQUINIA

Il Nero Marquina è un marmo molto scuro, dal colore nero, con delle marcate venature bianche e argento che disegnano la superficie. Si tratta di un materiale naturale che preferisce l'applicazione all'interno e un clima mite.

Nero Marquina. It is a very dark marble, black with some strong white and silver veins which cross its surface. It is a natural material and prefers the interior environments and a mild climate. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

MARRONE EMPERADOR

Il marmo spagnolo Emperador Dark si presenta con un colore cioccolato, attraversato da venature di calcite color crema. Questo marmo non ha un colore fisso: varia notevolmente tono a seconda della luce e del buio.

Emperador Dark. It is a Spanish marble of brown chocolate color and crossed by calcite cream veins. This marble has not a steady color and it changes tone depending on the light or dark. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

PIETRA PECE

La pietra pece è un calcare tenero impregnato, secondo percentuali diverse, di bitume. Questa origine morfologica la rende particolarmente unica per la variazione cromatica che la caratterizza. Infatti la pietra pece, detta anche "roccia asfaltica", assume una colorazione che va dal grigio al marrone scuro mentre la contemporanea presenza di fossili e di venature la valorizzano ancora di più, definendola in maniera inequivocabile.

The pitchstone is a type of limestone which is characterized by different percentages of bitumen. This morphologic origin makes the pitchstone particularly unique for its peculiar chromatic shading. In fact, the pitchstone is also called "asphaltic stone" because it has a colour that goes from gray to dark brown, while the parallel presence of fossils and grains gives it much more value by defining it in an unambiguous way. Stone is a natural product whose visible irregularities are precise characteristics of the material. The images and samples are therefore purely indicative.

Condizioni generali di vendita

Prezzi

Salvo patto contrario, i prezzi si intendono per merce resa franco stabilimento di Patti (ME), IVA esclusa, e imballi esclusi.

Ordinativi

Gli ordinativi dovranno essere inoltrati per iscritto. Un ordinativo viene considerato valido soltanto quando Lithea avrà emesso relativa conferma d'ordine scritta direttamente dalla sua sede, che si intende accettata dal Committente in tutte le sue parti qualora Lithea non riceva comunicazione in merito entro 3 (tre) giorni dalla data di emissione. Accordi verbali o telefonici, di qualunque natura essi siano, sono validi solo se confermati per iscritto da parte della Lithea. Nell'esecuzione dell'ordine e nella relativa fatturazione si farà esclusivo riferimento a prezzi, misure, quantità e finiture riportati nella conferma d'ordine.

Termini di consegna

Il termine di consegna o di spedizione ha valore semplicemente informativo e non impegnativo.

Trasporti

Salvo patto contrario, spese e rischi di trasporto saranno a carico del Committente, anche qualora la merce fosse consegnata a destino tramite trasportatore incaricato dalla Lithea.

Pagamenti

I termini di pagamento specificati in fattura si intendono tassativi. Non si accettano condizioni difformi se non preventivamente ed espressamente pattuite. La Lithea si riserva il diritto di sospendere o annullare forniture in corso di spedizione ed ogni eventuale ordine già accettato, qualora i pagamenti non siano effettuati nei termini stabiliti.

Reclami

Ogni fornitura si intende accettata trascorsi 8 (otto) giorni dal ricevimento della merce senza reclami. I reclami dovranno essere fatti a mezzo lettera raccomandata e dovranno pervenire alla sede della Lithea. Contestazioni o reclami di qualsiasi genere che perverranno dopo la rivendita o la posa in opera della merce fornita non saranno presi in considerazione. Non possono in nessun caso essere considerati come difetti della pietra, in quanto caratteristici dei prodotti naturali, variazioni di colore e venatura, riscontrabili anche all'interno dello stesso raggruppamento di tonalità. Le campionature di riferimento sono da considerarsi esclusivamente come indicative. Foro competente per ogni controversia è quello di Patti (ME).

General terms of sales

Prices

Unless otherwise established in writing, prices are to be intended Ex-works Patti(ME), VAT and packaging are not included.

Orders

Orders will be accepted only if confirmed in writing, completed with all the relevant details, and will be validated by signing and sending back our offer. Lithea reserves the right to accept or modify orders by sending fax/e-mail confirmation. We will not accept any cancellation or modification after three (3) days from the confirmation of the order. Verbal agreements will be considered as actual orders only after our written confirmation. When preparing and invoicing orders, exclusive reference will be made to the prices, sizes, quantities and thicknesses indicated in our order confirmation.

Delivery times

Delivery time, if indicated, is never binding, but purely indicative.

Delivery terms

Unless otherwise agreed, the Purchaser will bear all the transport cost and risks, even when Lithea will arrange transport to the final destination.

Payments

Terms of payment are indicated in our invoices and shall be intended as peremptory. Non payment or delayed payment of our invoices, for any reason whatsoever, give Lithea the indisputable right to consider any confirmed order temporarily suspended or permanently cancelled.

Complaints

Possible disputes on supplied goods must be submitted by registered return mail within eight (8) days from receiving goods. In no case we will accept claims on already laid or sold materials, even if partially. Any inconsistencies in color, surface finishing and thickness, even if considerable, are innate to the product and cannot therefore stand as ground of claims. All disputes will be exclusively submitted to the court of Patti (ME).
