

ROTOR

STOOL

Inspired by the Reuleaux rotating triangle, the form of the Rotor stool is based on the intersection of three circles. The CNC-cut organic shape celebrates 'the curve of constant width' with the wood grain radiating out in six directions from the centre to create a structural pattern. Available as a versatile sidetable or comfortable stool with the addition of a padded vegetable-tanned leather seat.

Year. 2018

Category. Seating

Dimensions. L 388mm x W 380mm x H500mm

Materials. Oak / Ebonised Oak / Walnut
